ASSP REGION 1 REGIONAL OPERATING COMMITTEE MEETING— SPRING 2024

LONG BEACH, CALIFORNIA

We recommend you fly into the fabulous Long Beach Airport! For the second consecutive year, Long Beach Airport (LGB) is among the Best Airports in the United States, based on votes by readers of Condé Nast Traveler magazine. Ranking eighth nationwide, LGB continues to be a favorite among travelers who recognize its convenient Southern California location, exemplary amenities and first-class customer experience. Located just 10 miles from the Hyatt Regency, there are six ways to get from the airport to the hotel, including a hotel shuttle, rental cars, bus, Uber, Lyft, and even a limousine option!

Long Beach enjoys year-round mild weather with lots of sunshine. Temperatures in mid-April are typical Southern California—**AWESOME!** Visitors can expect nighttime lows around 50° and daytime highs around 70°. There is little to no rain in Long Beach in April, so leave your umbrellas at home! Pack light for gorgeous weather, and be sure to leave space in your suitcase for souvenirs!

After a long day of travel, nothing says, “WELCOME” more than a swanky swag bag (try saying that three times fast!) waiting for you in your hotel room. We won’t give away all the secrets about this particular bag, but let’s just say we think you’ll be glad you decided to attend the Spring ROC!
